## COLORS

DESERT

BLUE STONE

SANTA FE

The Lakeland retaining wall is a versatile, multi-piece wall system that replicates the sophisticated look of an old brick wall with the strength and consistency of modern concrete. Its tumbled block finish delivers a weathered character that enhances any outdoor environment, from garden beds to outdoor living spaces.

Lakeland builds right angles and straight walls with ease, making it the go-to choice for clean, structured landscaping projects. Combine Lakeland with Riverland wall block for a complementary system that handles both straight runs and sweeping curves with equal ease.

Blocks	Dimensions	Units Per SF.	SF. Per Pallet	# of Layers	Units Per Pallet	Weight Per Pallet	Weight Per Unit
Lakeland Small	4 x 4 x 8	10	33.3	5	300	2,450 lbs.	8 lbs.
Lakeland Medium	4 x 8 x 8	5	33.3	5	150	2,300 lbs.	15 lbs.
Lakeland Standard	4 x 12 x 8	3.3	33.3	5	100	2,650 lbs.	26 lbs.

**BUILDS RIGHT ANGLES AND STRAIGHT WALLS****CHISELED CAP****FREESTANDING AND SEAT WALL APPLICATIONS**

**Simplicity:** Lakeland's mortarless, pinless construction requires no specialized tools and no complicated hardware. Stack and secure with professional-grade masonry adhesive to build lasting garden walls, seat walls, planters, and outdoor living features. Each unit weighs between 8 and 26 lbs., keeping the system manageable on any job site.

**Durability:** Manufactured from high-quality concrete, Lakeland is built to hold up against the demands of time and weather. Dry-stacked or adhesive-set, these structures are low-maintenance and built to last in Northern Arizona's climate.

**Versatility:** Three block sizes work together to create an endless variety of configurations. Build straight walls and right-angle corners using standard Lakeland blocks, then add tapered wedge blocks to achieve a natural 8' outside radius – all from the same system, without special inventory.

**Character:** The tumbled finishing process distresses each unit to produce the rich, weathered texture of aged stone. Cap with a Chiseled Cap for a clean, finished top edge. Available in Blue Stone, Santa Fe, and Desert.
